David Larke
Coversure Insurance services

18th April 2012

Dear David

Just a short thank you to show others that you are true to your word. You had previously stated that you could cut most household insurances. Mine was due for renewal with my bank that had previously always been the cheapest. I gave you the opportunity to give me a quote. The quote was for contents as well as building insurance. You certainly came up trumps saving me £122 for the year and your insurance was more comprehensive including the loss of my car keys.

I had also requested you provide me with wedding insurance details for my clients. This was to cover them for any eventualities that may occur. This you provided immediately and, again, is extremely competitive. I can now offer your wedding insurance to all my clients to give them that extra piece of mind and show that my services cover more than just the photography.

I will have no hesitation in recommending anyone I know to use your services.

Many thanks
