F.A.O. David Larke – Coversure Insurance Services

Dear David,

Being a new dog owner, is like starting a new family all over again and your not quite sure what to do, and don't always take the best possible advise that is available.

So when we took Maisy a then Boxer puppy to the vets for her first batch of injections, we were sold and bought into a Pet Insurance.

Upon listening to Martin Willoughby's glowing testimonial on the Pet Insurance you're provided him, when our policy came up for renewal I immediately contacted you.

Low and behold not only do we now have a better Pet Insurance Plan now in place it's at a fraction of the cost.

I would like to thank you not only for the excellent advice you gave, but thanks for saving us money in the process.

A big thank you from me and a massive woof woof from Maisy.

Many Thanks
